PLG PROVIDES EXTREMELY VERSATILE DESIGNS AND MANUFACTURING WITH THE ABILITY TO BRING YOUR CONCEPTS AND IDEAS TO LIFE. WE WORK WITH INDIVIDUALS AND COMPANIES AT ALL STAGES OF DESIGN, FROM CONCEPT TO COMPLETION, IN A HIGHLY FOCUSED EFFORT TO BRING INDUSTRY LEADING QUALITY TO OUR CLIENTS.

AS A MANUFACTURING COMPANY WE ARE ABLE TO NOT ONLY DESIGN AND DEVELOP YOUR PRODUCTS BUT ALSO BRING THEM TO LIFE WITH THE BEST BALANCE BETWEEN QUALITY AND COST, MAKING US YOUR BEST OPTION IN THE LIGHTING INDUSTRY.

Nearshore Manufacturing Partner

WE PROVIDE OUR CUSTOMERS WITH THE BEST SOLUTIONS FOR AN OUTSOURCED MANUFACTURING PROCESS. WE LEVERAGE YEARS OF EXPERIENCE TO PROVIDE RELIABLE AND COST-EFFICIENT SOLUTIONS FOR CONTRACT AND PRIVATE LABEL MANUFACTURING.

1

In-house factory

As a manufacturing company with an in house factory we deliver the best combination of time and cost efficiency becoming the number one solution for our clients.

2

Simplify Process

We simplify the process to give you quality and on-time delivery at a compelling price.

3

Logistics Services

We understand that time is of the essence and we offer the best logistics solutions to deliver the goods to your warehouse in the most timely way possible.

What we can offer

Our manufacturing capabilities range from producing small parts to full fixtures, and we can adjust our production based on your needs. You can rely on our expertise to deliver high quality products every time.

Small parts

- Custom Plaster Frames
- IC Boxes and jbox
- Driver Boxes
- Hanger bars
- Any metal stamping product you may require

Light Fixture Housing

We can reverse engineer, copy and create any design you may need from the start. Our products range from die casting to extrusions and metal stamping.

Full Fixtures

We comply with all the UL Listed requirements and we can list any fully finished product you may need.

OUR FACILITIES

We have 3 facilities in Mexico City

- Extrusions

150k sq ft

- Die Casting

60k sq ft

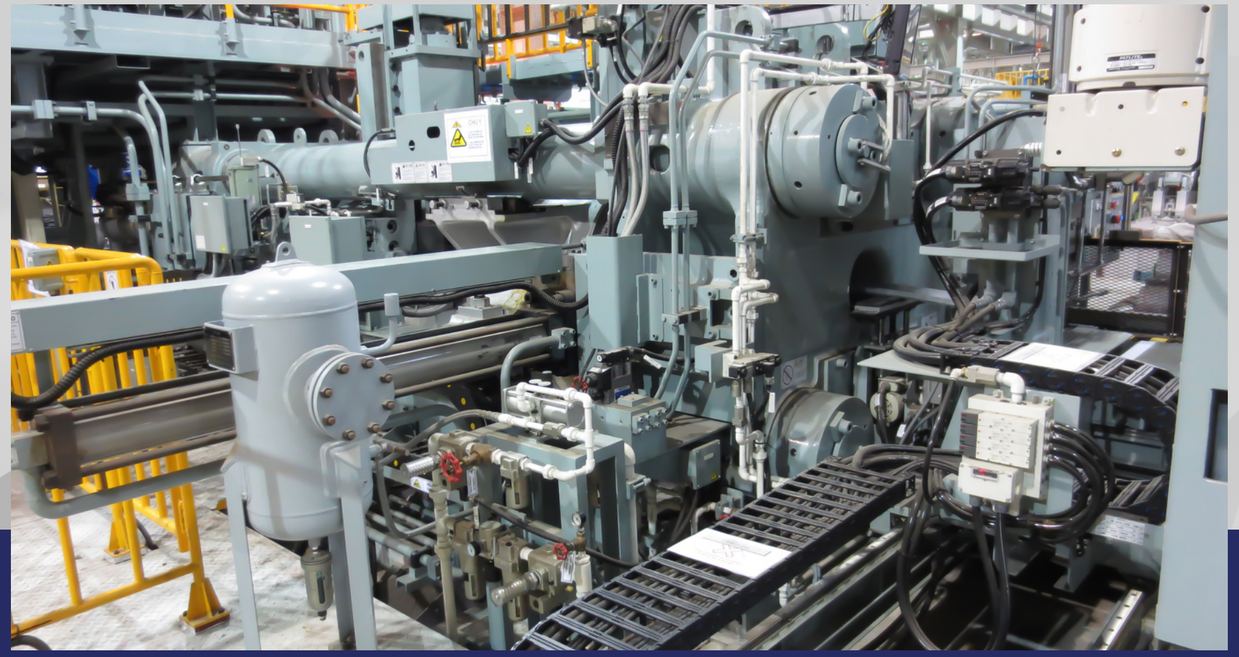

- Ensamble & Warehouse

50k sq ft

EXTRUSIONS

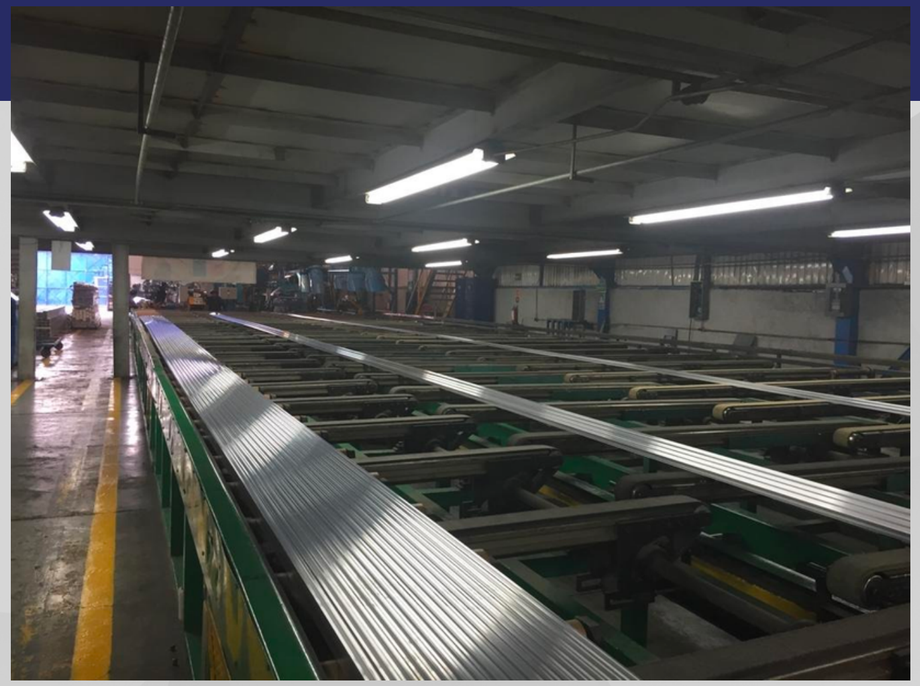

Our extrusions facility is equipped with machines to create all the designs our clients require with the lowest cost and highest quality we can offer.

- 16 tons per shift per month (up to 3 shifts depending on project)
- Length of extrusion depends on the part but the minimum is 1 Mts and max 6.5 Mts long (Can be cut shorter for smaller parts)
- Tooling up to 9.5 inch

EXTRUSIONS FACILITY

DIE CASTING

- 4 Large machines with a 700 ton capacity
- Producing between 30-35 tons per shift per month (Up to 3 shifts depending on project)
- 4 machines with a 500 ton capacity for medium and small parts
- Producing between 10-15 tons per shift per month (up to 3 shifts depending on project)

PLG skilled operators and precision die casting machines consistently produce high-quality parts. With experienced die casters operating around the clock, you can expect your parts when you need them.
